**[AB 238](#) (Steinorth R) Emergency response: trauma kits.**

**Last Amend:** 2/21/2018

**Status:** 2/26/2018-Re-referred to Com. on RLS. pursuant to Senate Rule 29.10(c).

**Location:** 2/26/2018-S. RLS.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conf. Conc.			

**Summary:** Under existing law, a person is generally responsible, not only for the result of his or her willful acts, but also for an injury occasioned to another by his or her want of ordinary care or skill in the management of his or her property or person. Existing law exempts from civil liability a person who, in good faith and not for compensation, renders emergency medical or nonmedical care or assistance at the scene of an emergency other than an act or omission constituting gross negligence or willful or wanton misconduct. Existing law exempts public or private organizations that sponsor, authorize, support, finance, or supervise the training of people, or certifies those people in emergency medical services, from liability for civil damages alleged to result from those training programs. This bill would define "trauma kit" to mean a first aid response kit that contains specified items, including, among other things, at least 2 tourniquets. The bill would require a person or entity that supplies a trauma kit to provide the person or entity that acquires the trauma kit with all information governing the use, installation, operation, training, and maintenance of the trauma kit. The bill would apply the provisions governing civil liability described above to a lay rescuer or person who renders emergency care or treatment by using a trauma kit and to a person or entity that provides training in the use of a trauma kit to provide emergency medical treatment, or certifies certain persons in the use of a trauma kit. Existing law requires certain occupied structures that are not owned or operated by a local government entity and are constructed on or after January 1, 2017, to have an automated external defibrillator on the premises. This bill would require the entity responsible for managing the building, facility, and tenants of specified types of buildings, including, among others, educational buildings and mercantile buildings, constructed by the state or a local government entity after January 1, 2019, to acquire and place a trauma kit on the premises of the building. Because the bill would impose new duties on local government entities with respect to the placement of trauma kits, the bill would impose a state-mandated local program. The bill would require an entity responsible for managing the building, facility, and tenants of an occupied structure in which a trauma kit is placed to comply with certain requirements, such as periodically inspecting and replacing the contents of a trauma kit, restocking the trauma kit after each use, and notifying tenants of the building or structure of the location of the trauma kit. The bill would exempt a person or entity that acquires and places a trauma kit for emergency care from liability for civil damages resulting from an act or omission in the rendering of emergency care if those requirements have been met. This bill would authorize the California Building Standards Commission to research and collect public input for the purpose of determining if mandatory or voluntary building standards should be adopted regarding the placement of trauma kits in a public building constructed, or a public building that has an addition, significant repair, or alteration completed, on or after January 1, 2019. The bill would authorize the commission to adopt that standard. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf.	Enrolled	Vetoed	Chaptered
1st House				2nd House				Conf. Conc.			

**Summary:** Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, governs local emergency medical service systems and plans and establishes the Emergency Medical Services Authority, which is responsible for the coordination and integration of all state activities concerning emergency medical services. Existing law provides that emergency medical personnel have specified due process rights when they are subject to suspension or termination for disciplinary cause or reason, as defined. This bill would require an employer that provides emergency medical services as part of an emergency medical services system or plan to authorize and permit its employees engaged in prehospital emergency services to take prescribed rest

periods, including specifying grounds for interruption of a rest period and compensation for an interrupted rest period. The bill also would require the employer to provide these employees with prescribed meal periods, including specifying grounds for interruption of a meal period and compensation for an interrupted meal period. The bill would authorize an employer to require during rest and meal periods that employees monitor pagers, radios, station alert boxes, intercoms, cellular telephones, or other communication methods to provide for the public health and welfare. This bill contains other related provisions and other existing laws.

**Location:** 9/1/2017-S. 2 YEAR

Desk	Policy	Fiscal	Floor	Desk	Policy	2 year	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** (1)Existing law requires a health facility that maintains and operates an emergency department to provide emergency services and care to any person requesting the services or care for any condition in which the person is in danger of loss of life, or serious injury or illness, as specified. If a licensed health facility does not maintain an emergency department, its employees are nevertheless required to exercise reasonable care to determine whether an emergency exists and to direct the person seeking emergency care to a nearby facility that can render the needed services, as specified. Existing law makes a violation of these provisions a crime. This bill would specify that a psychiatric unit within a general acute care hospital, a psychiatric health facility, or an acute psychiatric hospital, excluding certain state hospitals, regardless of whether it operates an emergency department, is required to provide emergency services and care to treat a person with a psychiatric emergency medical condition who has been accepted by the facility, as specified, if the facility has appropriate facilities and qualified personnel. The bill would make conforming changes to related provisions. The bill would also prohibit a general acute care hospital or an acute psychiatric hospital, as a condition to accepting a transfer of a patient from another health facility, from requiring that the patient be in custody as a result of a mental health disorder causing him or her to be a danger to others or himself or herself, or is gravely disabled. By expanding these duties, this bill would expand the scope of a crime, thereby imposing a state-mandated local program. This bill contains other related provisions and other existing laws.

**Location:** 9/16/2017-S. INACTIVE FILE

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** Existing law provides for the exemption of authorized emergency vehicles, as defined, from the payment of a toll or charge on a vehicular crossing, toll highway, or high-occupancy toll (HOT) lane and any related fines, when the authorized emergency vehicle is being driven under specified conditions, including, among others, the vehicle is displaying public agency identification and driven while responding to or returning from an urgent or emergency call. Existing law provides procedures for an operator of a toll facility and a public agency to resolve certain disputes relating to the nonpayment of tolls. Existing law allows for agreements between the owner or operator of a toll facility and a local emergency service provider that establish terms for the use of the toll facility by the emergency service provider. Existing law prohibits a person from operating a privately owned emergency ambulance unless licensed by the Department of the California Highway Patrol. This bill would generally modify the exemption to apply to the use of a toll facility, as defined, and would expand the exemption, dispute resolution procedures, and agreement provisions to include a privately owned emergency ambulance licensed by the Department of the California Highway Patrol. The bill would also make technical changes to these provisions.

1st House				2nd House								

**Summary:** Existing law provides for the regulation of private swimming pools. Existing law also provides for the regulation of public swimming pools by the State Department of Public Health. Existing law requires the provision of lifeguard services at any public swimming pool that is of wholly artificial construction and for the use of which a direct fee, as defined, is imposed. A violation of those provisions is a crime. This bill would require those public swimming pools, as defined, that are required to provide lifeguard services and that charge a direct fee to additionally provide an Automated External Defibrillator (AED) during pool operations. Because the failure to comply with these provisions would be a crime, the bill would create a state-mandated local program. The bill would also require the State Department of Education, in consultation with the State Department of Public Health, to issue best practices guidelines related to pool safety at K-12 schools. This bill contains other existing laws.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered	
1st House				2nd House								

**Summary:** Under existing law, the California Emergency Services Act, the Governor is authorized to proclaim a state of emergency, as defined, under specified circumstances. The California Emergency Services Act also authorizes the governing body of a city, county, city and county, or an official designated by ordinance adopted by that governing body, to proclaim a local emergency, as defined. This bill would create the Peer Support and Crisis Referral Services Act. The bill would, for purposes of the act, define a "peer support team" as a local critical incident response team composed of individuals from emergency services professions, emergency medical services, hospital staff, clergy, and educators who have completed a peer support training course developed by the Office of Emergency Services, the California Firefighter Joint Apprenticeship Committee, or the Commission on Correctional Peace Officer Standards and Training, as specified. The bill would provide that a communication made by emergency service personnel to a peer support team member while the emergency service personnel receives peer support services, as defined, is confidential and shall not be disclosed in a civil or administrative proceeding, except as specified. The bill would also provide that, except for an action for medical malpractice, a peer support team or a peer support team member providing peer support services is not liable for damages, as specified, relating to the team's or team member's act, error, or omission in performing peer support services, unless the act, error, or omission constitutes gross negligence or intentional misconduct. The bill would provide that a communication made by emergency service personnel to a crisis hotline or crisis referral service, as defined, is confidential and shall not be disclosed in a civil or administrative proceeding, except as specified. This bill contains other related provisions and other existing laws.

1st House				2nd House								

**Summary:** Under existing law, the State Department of Public Health licenses and regulates health facilities, defined to include, among others, acute psychiatric hospitals. A violation of these provisions is

a crime. This bill would require the State Department of Public Health to develop and submit a proposal to solicit a grant under the federal 21st Century Cures Act to develop a real-time, Internet-based database to collect, aggregate, and display information about beds in inpatient psychiatric facilities, crisis stabilization units, residential community mental health facilities, and licensed residential substance use disorder treatment facilities. The bill would require a database created using grant funds received as a result of the submission of that proposal to have the capacity to collect data and enable a specified search to identify beds that are appropriate for the treatment of individuals and to include specified information, including, among other things, the contact information for the facility's designated employee and information on beds. The bill would require the department to confer with stakeholders to inform the development of the proposal and to submit an evaluation to the federal Health and Human Services Secretary and to the Legislature. This bill contains other existing laws.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** Existing law authorizes the board of supervisors of a county to contract for special services on behalf of various public entities with persons who are specially trained, experienced, expert, and competent to perform the special services, as prescribed. These services include financial, economic, accounting, engineering, legal, and other specified services. This bill would establish specific standards for the use of personal services contracts by counties. The bill would allow a county or county agency to contract for personal services currently or customarily performed by employees, as applicable, when specified conditions are met. Among other things, the bill would require the county to clearly demonstrate that the proposed contract will result in actual overall costs savings to the county and also to show that the contract does not cause the displacement of county workers. The bill would exempt certain types of contracts from its provisions, and would exempt a city and county from its provisions. By placing new duties on local government agencies, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** Existing law provides for the Medi-Cal program, which is administered by the State Department of Health Care Services, under which qualified low-income individuals receive health care services. The Medi-Cal program is, in part, governed and funded by federal Medicaid program provisions. Under existing law, the department and counties provide specialty mental health services for Medi-Cal beneficiaries through mental health managed care plans, as specified. Under existing law, these services may include crisis stabilization services and inpatient psychiatric care. This bill would authorize a certified crisis stabilization unit designated by a mental health managed care plan, at the discretion of the mental health managed care plan, to provide medically necessary crisis stabilization services to individuals beyond the service time of 24 hours in those cases in which the individual needs inpatient psychiatric care or outpatient care and inpatient psychiatric beds or outpatient services are not reasonably available. The bill would require a person who is placed under, or who is already under, a 72-hour involuntary hold because, based on probable cause, the person, as a result of a mental disorder, is a danger to others, or to himself or herself, or is gravely disabled, to be credited for the time detained at a certified crisis stabilization unit. The bill would require the department to amend its contract with a mental health plan to include a provision authorizing the provision of crisis stabilization services for more than 24 hours if the mental health plan elects to provide crisis stabilization services under these provisions. The bill would require the department to require these mental health plans to establish treatment protocols, documentation standards, and administrative procedures, consistent with best practices and other evidence-based medicine, to be followed by a certified crisis stabilization unit for appropriate treatment to individuals who are provided crisis stabilization services for more

than 24 hours. The bill would require the department to seek any state plan amendments or waivers, or amendments to existing waivers, that are necessary to implement these provisions.

**Location:** 9/16/2017-S. INACTIVE FILE

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** Under the Meyers-Milias-Brown Act (MMBA), employees of local public agencies have the right to form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on all matters of employer-employee relations. The MMBA authorizes a local public agency to adopt reasonable rules and regulations after consultation in good faith with representatives of a recognized employee organization or organizations for the administration of employer-employee relations under the act. The Public Employment Relations Board (PERB) has jurisdiction over certain disputes arising pursuant to the MMBA. The MMBA defines "public employee" to mean any person employed by a public agency, in addition to other specified employees. The MMBA rules and regulations may include exclusive recognition of employee organizations formally recognized pursuant to a vote of the employees of the agency or an appropriate unit thereof, subject to the right of an employee to represent himself or herself. This bill would revise the definition of "public employee" for the purpose of the act to also include persons jointly employed by a public agency and any other employer at specified clinics and hospitals. The bill instead would specify that those rules and regulations may provide for exclusive recognition of employee organizations formally recognized pursuant to a vote of the employees of the agency or an appropriate unit thereof, subject to the employee's right to represent himself or herself, and provided that determination of an otherwise appropriate unit of, or including, these jointly employed public employees is not contingent upon, and does not otherwise require the agency or joint employer's consent. This bill contains other related provisions and other existing laws.

1st House				2nd House							

**Summary:** (1)Existing law provides that it is the intent of the Legislature that all public schools, in kindergarten, and grades 1 to 12, inclusive, operated by school districts develop a comprehensive school safety plan, as provided. Existing law provides that school districts and county offices of education are responsible for the overall development of a comprehensive school safety plan for each of its schools, as provided. Existing law requires the schoolsite council of a school to write and develop the comprehensive school safety plan relevant to the needs and resources of that particular school. This bill would provide that it is the intent of the Legislature that all public schools, in kindergarten, and grades 1 to 12, inclusive, operated by school districts or charter schools, develop a comprehensive school safety plan. The bill, for purposes of the comprehensive school safety plan provisions, would define "school" to mean a school operated by a school district, a county office of education, or a charter school, "school district and county office of education" and "school district or county office of education" to mean a school district, a county office of education, or the governing body of a charter school, and "schoolsite council" to include the governing body of a charter school. By extending the comprehensive school safety plan requirements to the charter schools, the bill would impose a state-mandated program. This bill contains other related provisions and other existing laws.

**Summary:** Existing law classifies certain controlled substances into designated schedules. Existing law requires the Department of Justice to maintain the Controlled Substance Utilization Review and Evaluation System (CURES) for the electronic monitoring of the prescribing and dispensing of Schedule II, Schedule III, and Schedule IV controlled substances by a health care practitioner authorized to prescribe, order, administer, furnish, or dispense a Schedule II, Schedule III, or Schedule IV controlled substance. This bill would authorize the Department of Justice to enter into an agreement with an entity operating an interstate data share hub for the purposes of participating in interjurisdictional information sharing between prescription drug monitoring programs across state lines. The bill would require any agreement entered into by the Department of Justice for those purposes to ensure that all access to data within CURES complies with California law and meets the same patient privacy and data security standards employed and required for direct access of CURES.

**Summary:** Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, establishes the Emergency Medical Services Authority, which is responsible for the coordination and integration of all state agencies concerning emergency medical services. Among other duties, the authority is required to develop planning and implementation guidelines for emergency medical services systems, provide technical assistance to existing agencies, counties, and cities for the purpose of developing the components of emergency medical services systems, and receive plans for the implementation of emergency medical services and trauma care systems from local EMS agencies. This bill would authorize a local emergency medical services agency to submit, as part of its emergency medical services plan, a plan to transport specified patients who meet triage criteria to a behavioral health facility or a sobering center, as defined. The bill would make conforming changes to the definition of advanced life support to include prehospital emergency care provided during transport to a behavioral health facility or a sobering center. The bill would authorize a city, county, or city and county to designate, and contract with, a sobering center to receive patients, and would establish standards that apply to sobering centers, as specified. This bill contains other related provisions and other existing laws.

**Summary:** The California Emergency Services Act establishes the Office of Emergency Services within the Governor's office under the supervision of the Director of Emergency Services and makes the office responsible for the state's emergency and disaster response services for natural, technological, or manmade disasters and emergencies. Existing law requires the Governor to coordinate a State Emergency Plan, which is in effect in each political subdivision of the state, and requires the governing body of each political subdivision, as defined, to take actions necessary to carry out the provisions of that plan. Existing law defines an "operational area" as an intermediate level of the state emergency services organization, consisting of a county and all political subdivisions within the county area. This bill would require the Office of Emergency Services and the governing body of each political subdivision, including each operational area, to translate any emergency communication into the most commonly spoken language other than English in the impacted county or counties, or, at the option of a county, into one or more languages other than English spoken in the county pursuant to an individualized language assessment of that county. By imposing additional duties on local agencies, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

**Summary:** Existing law requires specified health practitioners who have knowledge of or observe a patient who the practitioner knows or reasonably suspects has suffered from a wound or injury inflicted by specified types of conduct to report to a law enforcement agency, as specified. A violation of these provisions is a crime. This bill would extend those reporting duties to health practitioners, as defined, employed by local government agencies, including, among others, emergency medical technicians and paramedics, as specified. By expanding the scope of an existing crime, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

**Calendar:** 5/9/2018 9 a.m. - John L. Burton Hearing Room (4203) SENATE EDUCATION, ALLEN, Chair  
**Summary:** Existing law establishes a system of public elementary and secondary schools operated by local educational agencies throughout this state. Under existing law, public and private secondary schools participate in interscholastic sports, and are authorized to enter into associations or consortia to enact and enforce rules relating to eligibility for, and participation in, these activities. Existing law authorizes school districts to provide specified medical services in connection with athletic events that are under the jurisdiction of, or sponsored or controlled by, school districts. These services include medical or hospital insurance for pupils injured while participating in athletic activities, and ambulance service for pupils, instructors, spectators, and other individuals in attendance at athletic activities. Existing law authorizes a public school to solicit and receive nonstate funds to acquire and maintain an automated external defibrillator (AED). Existing law provides that an employee of the school district is not liable for civil damages resulting from certain uses, attempted uses, or nonuses of an AED, except as provided. Existing law provides that a public school or school district that complies with certain requirements related to an AED is not liable for any civil damages resulting from any act or omission in the rendering of the emergency care or treatment, except as provided. If a school district or charter school elects to offer any interscholastic athletic program, this bill would require the school district or

charter school to (1) ensure that there is an a written emergency action plan in place place, and posted as specified, that describes the location and procedures to be followed in the event of sudden cardiac arrest or other medical emergencies related to the athletic program's activities or events, (2) acquire, commencing July 1, 2019, a sufficient number of AEDs for each school within the school district or the charter school, depending on the size of the school and the number of athletic events offered, as applicable, and ensure that an AED is available for the purpose of rendering emergency care or treatment at the athletic program's activities or events, as specified, and (3) ensure that an AED is maintained and regularly tested, as specified.

**Summary:** Existing law, the Pharmacy Law, the knowing violation of which is a crime, provides for the licensure and regulation of pharmacies, pharmacists, intern pharmacists, and pharmacy technicians by the California State Board of Pharmacy. The Pharmacy Law authorizes a pharmacy to provide pharmacy services to specified licensed health facilities through the use of an automated drug delivery system. Existing law, the Pharmacy Law, authorizes a licensed clinic to make use of an automated drug delivery system, operated under the authorization of a pharmacist, and under which the clinic is responsible for the safety and security of the drugs in the system. This bill would provide an alternative program to authorize a pharmacy to provide pharmacy services to covered entities, as defined, that are eligible for discount drug programs under federal law, as specified, through the use of an automated drug delivery system, as defined. This bill contains other related provisions and other existing laws.

**Summary:** Existing law establishes the State Department of Health Care Services within the California Health and Human Services Agency and sets forth the powers and duties of the department with regard to the administration and state oversight of mental health and substance use disorder functions and programs in this state, and the Medi-Cal program. Existing law authorizes the State Department of Health Care Services to enter into exclusive or nonexclusive contracts, or to amend existing contracts, on a bid or negotiated basis for the purpose of administering or implementing any federal grant awarded pursuant to the federal 21st Century Cures Act. This bill would require the State Department of Health Care Services to develop and submit an application to solicit a grant under the federal authority described above to develop a community-based crisis response plan and would require the grant application to include, at a minimum, a plan for specified objectives. The bill would require the department to confer with specified stakeholders in developing its grant proposal and application. The bill would require the department, if awarded a grant, to submit to the United States Secretary of Health and Human Services, at the time and in the manner, and containing the information, as the Secretary may reasonably require, a report, including an evaluation of the effect of that grant on, among other things, local crisis response services and measures for individuals receiving crisis planning and early intervention supports. The bill would also require the department to submit a copy of this report to the Legislature. This bill contains other existing laws.

**Summary:** Existing law requires each law enforcement agency in the state to develop, adopt, and implement written policies and standards for officers' responses to domestic violence calls. This bill would, until January 1, 2024, require the County of Alameda to develop a lethality assessment program to develop tools for first responders to assess the lethality of domestic violence perpetrators in order to inform the decisions made by those first responders. The bill would require the program to investigate which strategies reduce domestic violence fatalities, the number of domestic violence survivors that have fewer violent incidents with their partner after contact with first responders, and the number of first responders that direct domestic violence survivors to resources. The bill would require the Office of the District Attorney in the County of Alameda to annually prepare a report on the progress of the program, as specified, and to prepare a final report to the Legislature on April 1, 2023. By imposing additional duties on a county, this bill would create a state-mandated local program. This bill contains other related provisions and other existing laws.

Location: 4/27/2018-A. DEAD

Desk	Dead	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** Existing law provides for the licensure and regulation of various professions and vocations by boards within the Department of Consumer Affairs and provides that those boards are established for the purpose of ensuring that those private businesses and professions deemed to engage in activities that have potential impact upon the public health, safety, and welfare are adequately regulated in order to protect the people of California. Existing law authorizes a board to deny a license if an applicant has been convicted of a crime, done any act involving dishonesty, fraud, or deceit with intent to substantially benefit himself or herself or another or substantially injure another, or does any act that, if done by a licentiate of the business or profession, would be grounds for suspension or revocation. This bill would establish that a person has a right to engage in a lawful profession or vocation without being subject to an occupational regulation, as defined, that imposes a substantial burden on that right, and would require each occupational regulation to be limited to what is demonstrably necessary and narrowly tailored to fulfill a legitimate public health, safety, or welfare objective. The bill would include within this the right of a person with a criminal record to not have the person's criminal record used by a board as an automatic or mandatory permanent bar to engaging in a lawful profession or vocation, except as specified, and the right of a person who is behind on his or her taxes or student loan payments to not have a board use that fact as an automatic or mandatory permanent bar to engaging in a lawful profession or vocation. This bill contains other related provisions.

**Summary:** Existing law provides for the licensure and regulation of general acute care hospitals and acute psychiatric hospitals by the State Department of Public Health. Existing law requires emergency services and care, including screening, examination, and evaluation to determine if a psychiatric emergency medical condition exists and the care and treatment necessary to relieve or eliminate the psychiatric emergency medical condition, to be provided to any person requesting the services or care. Existing law regulates the transfer of a person from one hospital to another. Violation of these provisions is a crime. This bill would prohibit a general acute care hospital or an acute psychiatric hospital from requiring a person who voluntarily seeks care to be in custody as a danger to himself or herself or others or gravely disabled as a condition of accepting a transfer of that person. By creating a new crime, this bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

**Calendar:** 5/8/2018 9:30 a.m. - State Capitol, Room 4202 ASSEMBLY BUSINESS AND PROFESSIONS, LOW, Chair

**Summary:** The Control, Regulate and Tax Adult Use of Marijuana Act of 2016 (AUMA), an initiative measure approved as Proposition 64 at the November 8, 2016, statewide general election, authorizes a person who obtains a state license under AUMA to engage in commercial adult-use cannabis activity pursuant to that license and applicable local ordinances. The Medicinal and Adult-Use Cannabis Regulation and Safety Act (MAUCRSA), among other things, consolidates the licensure and regulation of commercial medicinal and adult-use cannabis activities. MAUCRSA authorizes an applicant to apply to all applicable state licensing authorities to obtain a state license to engage in commercial adult-use cannabis activity, except as specified, and requires the applicant to obtain a separate license for each location where the applicant engages in commercial cannabis activity. MAUCRSA authorizes a state licensing authority to issue a state temporary event license to a licensee authorizing onsite cannabis sales to, and consumption by, persons 21 years of age or older at a county fair or district agricultural association event, provided that certain other requirements are met. Existing state regulations govern the issuance of a temporary cannabis event license and a cannabis event organizer license. This bill would authorize a cannabis informational, educational, or training event to be held for state and local government officials, including, but not limited to, legislators, city council members, law enforcement organizations, emergency medical services staff, firefighters, child protective services, and social workers. The bill would authorize the display of cannabis products at an event held at an unlicensed location only if the general public does not have access to the event and would prohibit onsite consumption, sampling, or sale of cannabis during the event. The bill would authorize licensed cannabis retailers and manufacturers to transport cannabis products to the event without a cannabis event organizer license or a temporary cannabis event license. The Control, Regulate and Tax Adult Use of Marijuana Act, an initiative measure, authorizes the Legislature to amend the act to further the purposes and intent of the act with a 2/3 vote of the membership of both houses of the Legislature. This bill would declare that its provisions further specified purposes and intent of the act.

**Summary:** Under existing law, a judgment that a person convicted of an infraction be punished by a fine may also provide for the payment to be made within a specified time or in specified installments. Existing law requires a court, in any case when a person appears before a traffic referee or judge of the superior court for adjudication of a violation of the Vehicle Code, upon request of the defendant, to consider the defendant’s ability to pay, as specified. This bill would require the court, in any case involving an infraction filed with the court, to determine whether the defendant is indigent for purposes of determining what portion of the statutory amount of any associated fine, fee, assessment, or other financial penalties the person can afford to pay. The bill would provide that the defendant can demonstrate that he or she is indigent by providing specified information, including attesting to his or her indigent status under penalty of perjury. Because a violation thereof would be a crime, the bill would impose a state-mandated local program. This bill contains other related provisions and other existing laws.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered	
1st House				2nd House								

**Summary:** (1)Existing law exempts from civil liability any person who, in good faith and not for compensation, renders emergency care or treatment by the use of an automated external defibrillator (AED) at the scene of an emergency, except in the case of personal injury or wrongful death that results from the gross negligence or willful or wanton misconduct of the person who renders emergency care or treatment. Existing law also exempts from civil liability a person or entity that acquires an AED for emergency use, a physician who is involved with the placement of the AED, and any person or entity responsible for the site where the AED is located if specified conditions are met, including maintenance and regular testing of the AED and having a written plan that describes the procedures to be followed in case of an emergency that may involve the use of the AED. This bill would require a public entity that operates a rail transit system or a commuter train system to ensure that each train has an automated external defibrillator (AED) as part of its safety equipment subject to specified requirements. The bill would exempt a public entity that acquires an AED for emergency care from liability for any civil damages resulting from any acts or omissions in the rendering of the emergency care by use of the AED if the public entity has complied with certain requirements. (2)By imposing new duties on local public officials, the bill would create a state-mandated local program. The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement. This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to the statutory provisions noted above.

**Summary:** The California Emergency Services Act establishes the Office of Emergency Services in the office of the Governor and provides that the office is responsible for the state’s emergency and disaster response services for natural, technological, or manmade disasters and emergencies, including activities necessary to prevent, respond to, recover from, and mitigate the effects of emergencies and disasters to people and property. This bill would authorize each county, including a city and county, to develop a mechanism to access the contact information of resident accountholders through the records of a public utility or other agency responsible for water service, waste and recycling services, or other property-related services for the sole purpose of enrolling county residents in a county-operated public emergency warning system. The bill would specify that any county that develops such a mechanism would be required to include procedures to enable any resident to opt out of the warning system and not to use the information gathered for any purpose other than for emergency notification. This bill contains other existing laws.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** The California Emergency Services Act establishes the Office of Emergency Services (OES) in the office of the Governor and provides that OES is responsible for the state’s emergency and disaster response services for natural, technological, or manmade disasters and emergencies. The act also provides for systems for the public dissemination of alerts regarding missing children, attacks upon law enforcement officers, and missing persons who are 65 years of age or older, among others, and requires the Department of the California Highway Patrol to activate these systems and issue alerts upon the request of a law enforcement agency if certain conditions are met. This bill would provide for a red alert system designed to issue and coordinate alerts following an evacuation order, as specified. The bill would require the red alert system to incorporate a variety of notification resources and developing technologies that may be tailored to the circumstances and geography of the underlying evacuation, as appropriate. The bill would require a local government agency or state agency that uses the federal Wireless Emergency Alert (WEA) system to alert a specified area of an evacuation order to use the term “red alert” in the alert and notify OES of the alert. This bill contains other related provisions and other existing laws.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** (1)Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act, governs local emergency medical services (EMS) systems. The act establishes the Emergency Medical Services Authority, which is responsible for the coordination and integration of emergency medical services. Among other duties, the authority is required to develop planning and implementation guidelines for emergency medical services systems, provide technical assistance to existing agencies, counties, and cities for the purpose of developing the components of emergency medical services systems, and receive plans for the implementation of emergency medical services and trauma care systems from local EMS agencies. A violation of the act or regulations adopted pursuant to the act is punishable as a misdemeanor. This bill would create the Community Paramedicine Act of 2018. The bill would, until January 1, 2025, authorize a local EMS agency to develop a community paramedicine program, as defined, to provide specified community paramedic services. The bill would require the authority to review a local EMS agency’s proposed community paramedicine program and approve, approve with conditions, or deny the proposed program within 6 months after it is submitted by the local EMS agency. The bill would require a local EMS agency that opts to develop a community paramedicine program to, among other things, integrate the proposed program into the local EMS agency’s emergency medical services plan, enter into an agreement with a community paramedicine provider for the delivery of community paramedic services within the local EMS

agency's jurisdiction that is consistent with the proposed program, establish a process for training and certifying community paramedics, and facilitate and participate in any discussion between a community paramedic provider and public or private health system participants to provide funding to support implementation of the proposed program. This bill contains other related provisions and other existing laws.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** Existing law specifies the time period within which various proceedings may be commenced under provisions of law relating to workers' compensation. With certain exceptions, a proceeding to collect death benefits is required to be commenced within one year from several circumstances, including, but not limited to, from the date of death if it occurs within one year from the date of injury. Existing law prohibits proceedings from being commenced more than one year after the date of death, and generally not more than 240 weeks from the date of injury. Existing law, for specified deceased members, including peace officers and active firefighting members, extends until January 1, 2019, the time period to commence proceedings to collect death benefits, if the proceedings are brought by, or on behalf of, a person who was a dependent on the date of death, from 240 weeks from the date of injury to no later than 420 weeks from the date of injury, not to exceed one year after the date of death for certain injuries, as specified. This bill would delete the January 1, 2019, date of repeal operation of the above-referenced extension indefinitely.

**Location:** 4/26/2018-S. APPR.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** Existing law, the Emergency Medical Services System and the Prehospital Emergency Medical Care Personnel Act (the act), establishes the Emergency Medical Services Authority to coordinate and integrate all state activities concerning emergency medical services, including, among other duties, establishing training standards for specified emergency services personnel. The act provides a qualified immunity for public entities and emergency rescue personnel providing emergency services. The act provides other exemptions from liability for specified professionals rendering emergency medical services. This bill would authorize an emergency medical services provider, as defined, to provide basic first aid to dogs and cats, as defined, to the extent the provider is authorized by the employer to provide that care. The bill would exempt that provider and his or her employer from liability for civil damages, and would exempt the provider from other disciplinary action, for providing that care, except as specified. The definition of "basic first aid for dogs and cats" for purposes of these provisions would specifically include, among other acts, administering oxygen and bandaging for the purpose of stopping bleeding. This bill contains other existing laws.

Desk	Policy	Fiscal	Floor	Desk	Policy	Fiscal	Floor	Conf. Conc.	Enrolled	Vetoed	Chaptered
1st House				2nd House							

**Summary:** Existing law, the Pharmacy Law, establishes the California State Board of Pharmacy, within the Department of Consumer Affairs, to license and regulate the practice of pharmacy. Existing law makes any violation of the Pharmacy Law punishable as a crime. This bill would repeal the general ADDS provisions and the additional conditions for an ADDS located in a licensed clinic or a health

facility. The bill instead would prohibit an ADDS from being installed or operated in the state unless specified requirements are met, including a license for the ADDS issued by the board to the holder of a current, valid, and active pharmacy license. The bill would limit the placement and operation of an ADDS to specified locations, including the licensed pharmacy holding that ADDS license, a licensed health facility, a licensed clinic, or a specified medical office. The bill would require the pharmacy holding the ADDS license to own the ADDS and the drugs and devices located within it, and would require that pharmacy to supervise the operation of the ADDS. The bill would prescribe specified stocking and transfer requirements for those drugs and devices. The bill would require the pharmacy holding the ADDS license to provide training on the operation and use of that ADDS to specified individuals and would require the pharmacy to complete periodic self-assessments. The bill would require additional conditions for automated patient dispensing systems, as defined. The bill would also authorize a pharmacy inspector employed by the board to enter the location, or proposed location, of an ADDS to inspect the location pursuant to these provisions. Because a violation of the Pharmacy Law is punishable as a crime, the bill would expand the scope of an existing crime, thereby imposing a state-mandated local program. This bill contains other related provisions and other existing laws.
